Children in these settings participate in daily, age-appropriate activities that help develop essential skills, build independence and instill self-respect. When evaluating the quality of a child care setting, you should consider the facility's quality indicators related to activities, caregivers, and environment.

Quality Activities

- Activities are children initiated and teacher facilitated.
- Activities include social exchanges with all children.

Quality Caregivers

- Caregivers are friendly and eager to care for children.
- Caregivers accept family cultural and ethnic differences.

Quality Environments

- Environments are clean, safe, inviting, comfortable, and child-friendly.
- Environments provide easy access to age-appropriate toys.
